

THRIVE Lifeline

Thriving Harnesses Respect, Inclusion, and Vested Empathy

Non-carceral Resource List

Note: *It is always good to review an organization's specific policies before disclosing any information that could lead to an involuntary intervention or forced hospitalization.*

Strategies to reduce likelihood of involuntary intervention

No tactic is guaranteed to protect you, but if you are reaching out to 988 or a similar line (one which is not non-carceral), you can try:

- Not disclosing self harm thoughts or practices, or suicidal thoughts or history
 - Talking about passive suicidality rather than active suicidality
- Asking the operator directly if you are being flagged as “imminent risk”
- Using a burner phone; driving or walking around while calling

Information:

- What happens during a wellness check: <https://www.lawyersftp.com/what-is-a-wellness-check-by-the-police/>
- State-based laws and policies for involuntary intervention: <https://www.tac.org/look-up-your-state/>
- Psychiatric advance directives: <https://nrc-pad.org/>
